**Financial Evaluation**

Price quotes will be evaluated only for bidders whose technical proposals achieve a minimum score of 70 points in the technical evaluation.

Price quotes will be evaluated based on their responsiveness to the price quote form. The maximum number of points for the price quote is 100, which will be allocated to the lowest total price provided in the quotation. All other price quotes will receive points in inverse proportion according to the following formula:

\[
\text{Financial score} = \frac{\text{Lowest quote (})}{\text{Quote being scored (})} \times 100 \text{ (Maximum score)}
\]

**Total score**

The total score for each proposal will be the weighted sum of the technical score and the financial score. The maximum total score is 100 points.

\[
\text{Total score} = 70 \text{ Technical score} + 30\% \text{ Financial score}
\]

**VIII. Award Criteria**

In case of a satisfactory result from the evaluation process, UNFPA intends to award a Professional Service Contract on a fixed-cost basis to the Bidder that obtain the highest total score.

**IX. Right to Vary Requirements at Time of Award**

UNFPA reserves the right at the time of award of contract to increase or decrease by up to 20% the volume of services specified in this RFQ without any change in unit prices or other terms and conditions.

**X. Payment Terms**

UNFPA payment terms are net 30 days upon receipt of invoice and delivery/acceptance of the milestone deliverables linked to payment as specified in the contract.

**XI. Fraud and Corruption**

UNFPA is committed to preventing, identifying, and addressing all acts of fraud against UNFPA, as well as against third parties involved in UNFPA activities. UNFPA’s policy regarding fraud and corruption is available here: Fraud Policy. Submission of a proposal implies that the Bidder is aware of this policy.

Suppliers, their subsidiaries, agents, intermediaries and principals must cooperate with the UNFPA Office of Audit and Investigations Services as well as with any other oversight entity authorized by the Executive Director and with the UNFPA Ethics Advisor as and when required. Such cooperation shall include, but not be limited to, the following: access to all employees, representatives agents and assignees of the vendor; as well as production of all documents requested, including financial records. Failure to fully
cooperate with investigations will be considered sufficient grounds to allow UNFPA to repudiate and terminate the Agreement, and to debar and remove the supplier from UNFPA’s list of registered suppliers.

A confidential Anti-Fraud Hotline is available to any Bidder to report suspicious fraudulent activities at UNFPA Investigation Hotline.

**XII. Zero Tolerance**

UNFPA has adopted a zero-tolerance policy on gifts and hospitality. Suppliers are therefore requested not to send gifts or offer hospitality to UNFPA personnel. Further details on this policy are available here: Zero Tolerance Policy.

**XIII. RFQ Protest**

Bidder(s) perceiving that they have been unjustly or unfairly treated in connection with a solicitation, evaluation, or award of a contract may submit a complaint to the UNFPA Head of the Business Unit Dr. Asa Torkelsson, UNFPA Representative Malaysia/ UNFPA Country Director Thailand at torkelsson@unfpa.org Should the supplier be unsatisfied with the reply provided by the UNFPA Head of the Business Unit, the supplier may contact the Chief, Supply Chain management Unit at procurement@unfpa.org.

**XIV. Disclaimer**

Should any of the links in this RFQ document be unavailable or inaccessible for any reason, bidders can contact the Procurement Officer in charge of the procurement to request for them to share a PDF version of such document(s).

**Background**

Guided by the 1994 Programme of Action of the International Conference on Population and Development (ICPD), the United Nations Population Fund (UNFPA) has collaborated with Thailand since 1974. UNFPA Thailand has recently launched its 12th Country Programme (CP12: 2022-2026), which intends to support the Decade of Action and the global vision to achieve the three transformative results while aligning with the national priorities outlined in the 13th National Economic and Social Development Plan and the UN Sustainable Development Cooperation Framework (UNSCDF: 2022-2026).

Thailand National Statistical Office (TNSO) carries out a population and housing census every ten years. Population and housing census enumeration compiles basic information on the population and housing characteristics such as gender, age, religion, nationality, education, marital status, work status, and housing at national and sub-region levels. The twelfth population census and the sixth housing census were planned for 2020 but were delayed due to the impact of the COVID-19 pandemic.

**Rationale**

The postponement of the 2020 census poses unique challenges to data quality and census enumerators' workloads. Moreover, the COVID-19 community spread has revealed the limitations of traditional door-to-door census methods. To address the difficulties, alternative census methods have been considered. In this regard, TNSO expressed interest in learning more about the hybrid census method and how it could be implemented in Thai contexts to prepare for the new census. The modeling approach for hybrid censuses will generate age- and sex-structured subnational population estimates in Thailand's difficult-to-reach areas, along with associated uncertainty metrics.

**Purpose**
The on-site census data collection is essential for producing a comparable dataset that will help to ensure the accuracy of the hybrid census as part of the pilot hybrid census preparations. As a result, UNFPA Thailand is seeking for technical support from a team of experts or an institution to collect census data in five selected enumeration areas so as to provide the baseline data for Thailand’s pilot hybrid census.

**Objectives**

To provide technical assistance and the on-site census data collection as baseline information for Thailand’s hybrid census. The main objective is to collect census data in selected enumeration areas as the baseline information in supporting Thailand’s pilot hybrid census in collaboration with the National Statistical Office by ensuring high-quality census data collection and adhering to international standards and principles.

**Scope of Work**

1. Consultation with TNSO and UNFPA to better understand the requirements and select the enumeration areas.
2. Present the Outline Plan for data collection with TNSO and UNFPA.
3. Collect data in the selected enumeration areas with the support from TNSO.
4. Analyze data and summarize the findings.
5. Present the final report based on the findings and comments received.

**Deliverables**

1. The Outline Plan for census data collection according to the TOR.
2. Data collection in the selected enumeration areas.
3. Analysis of data collection’s findings as well as observations.
4. Final report and presentation of the census data collection as the baseline for the pilot hybrid census from the enumeration areas.

**Skills and experience required**

It is anticipated that the technical assistance on data collection as a baseline for the pilot hybrid census will be undertaken by a national consultant team with extensive census or survey data collection and analysis.

**Qualifications**

The consultant team must offer the following demonstrated experience, knowledge and competencies, and any national consultants selected will ideally have the same qualifications and will be required to have in-depth knowledge of census or survey data collection and analysis.
• At least ten years (with Master degree), or 12 years (with bachelor’s degree) of relevant progressive experience in the field of census or survey data collection and analysis.
• Knowledge and experience in census or survey data collection and analysis.
• Excellent analytical, writing, and communication skills;
• Excellent written and spoken English and Thai languages.
• Experience working in or with UNFPA is desired but not required;
• Comfort level in working with shared electronic folders (Google Drive), participating in videocons and teleconferences, and working with standard office software (Word or Google Docs, PowerPoint or Google Slides).

**Evaluation criteria**
Table below describes the criteria against the technical bids will be evaluated during selection of the successful candidate contractor.
